

Murad® Pore Reform™ Line

What is Pore Reform™

Murad Pore Reform is a targeted skin care system with scientifically advanced products formulated to visibly reduce the size of pores and combat the appearance of blackheads. The Pore Reform line of products effectively provides pores with protection against impurities while regulating oil production.

What is unique about Pore Reform™ products?

This comprehensive skincare line is designed to address the growing concern associated with blackheads and enlarged pores. The products in the Pore Reform line work to help strengthen the pores' natural support structure and effectively reduce blackheads caused by dead skin cells, oil and dirt in the follicles. By keeping pores clear of clogging free radicals and regulating oil production, Pore Reform balances the health of the skin's surface layer to provide a smooth, refined and even complexion as part of Dr. Murad's unique Inclusive Health® system.
